“HYPERION RAY V-004”

Notification of the delay of Nassau Arrival

Dear Valued customers,

Regarding the arrival date of Nassau of HYPERION RAY V-004, we regretfully inform our valued customers her significant delay of the arrival.

It was originally planned to call to Nassau cruise terminal directly by Grand Dahlia V-019 in the middle of May, however, due to new restriction of Nassau cruise terminal, we had forced to cancel to call to Nassau ports directly.

As a result, your valued cargoes would be transshipped at Kingston and Nassau arrival would be further delayed.

2ND Vessel Name : GRAND DAHLIA V-019

Feeder Vessel from Kingston : HOEGH BEIJING V108

Kingston ETA : May 5th

Nassau ETA : May 29th

We sincerely apologize for any inconvenience and trouble that may cause you, and appreciate your understanding and continued business with us.

Sincerely Yours
CNC JAPAN LIMITED
